The screenshot displays the uHe software interface for the NL021 Synth Library. The top navigation bar includes sections for SYNTH, TEMPLATES, PRESETS, VOICES, and MIX. The current selection is 'BA Big Pluck', with a trackball and buttons for UNDO, REDO, SAVE, RESTORE, and HIQ. The interface is divided into a DIRECTORY and TAGS section on the left, and a main list of synths on the right. The bottom panel features several synth modules: Feedback, Velvret, Lyrebird, Resq, Drench, and Gonic Conditioner.

Installation

Installing this sound bank is easy. Simply download the Zip file and unpack. You can then move the entire folder to your preferred place on your hard disk.

Add the presets to Repro-5 by copying the folder called “Repro-5 Pro Expansion” to Repro-5’s presets folder. See the Repro-5 user guide for more details.

Please keep a backup copy of your sound pack.

Please note: Requires U-he Repro-5 version 1 or later.

Introduction

5

Repro-5 Pro Expansion is the must have expansion pack to take U-he Repro-5 to the next level. 76 inspiring new presets deliver everything from beautiful vintage keys and brassy synths, to ominous distorted pads, punchy wide basses, and massive unison supersaw leads.

You'll find modern EDM plucks and leads alongside wonky analogue synths, creative sound effects, and huge pads. There's a wealth of classic synth sounds and new patches waiting to be explored.

All presets in this Repro-5 sound bank are named, tagged and level matched and most patches have mod wheel mapped for expressive playing.

Repro-5 Pro Expansion is suitable for any genre of electronic music including EDM, Trap, Hip Hop, Drum and Bass, House, Techno, Trance, Ambient, Cinematic and more.

As with all New Loops sample packs, once purchased Repro-5 Pro Expansion is 100% royalty free to use in your songs and audio productions.
